Re: SB 1303 and SB 1304
Landscape Architecture Licensure Upgrade

Dear Representative LAST NAME,

Please accept this letter in support of Senate Bills 1303-1304. This legislation was introduced to upgrade the licensure of landscape architects. Although, this legislation is still in the Senate, I wanted to make you aware that the legislation will be in process, and that I ask for your support of this legislation.

As a landscape architect this will provide our profession expanded job opportunities, parity with doing business in other states and with the national government, as well as additional health safety and welfare for our Michigan residents by providing qualified landscape architects to serve our citizens.

If I can be of any service to you or your staff in offering additional information or support for this important legislation or about landscape architecture, please do not hesitate to contact me.

Thank you for all you do.

Sincerely,
