

Michigan ASLA

Project Feature Submittal Form

Michigan ASLA is working to provide an easy-to-understand resource library that helps showcase the vast career field of landscape architecture. We are working to continuously build a library of projects from around the state that demonstrate the various types of ways in which landscape architects practice design. From residential design to large scale regional planning, and niche professions such as cemetery design, ecological restoration, and urban farming, we want to feature your project!

Please fill out the following form and send with the required attachments to Rachel Walsh, at administrator@michiganasla.org

PROJECT TITLE:

TYPE OF PROJECT:

(Ecological Restoration, Residential Design, Parks & Recreation, etc.)

PROJECT LOCATION:

Street Address:

City:
