

Principal Landscape Architect - Detroit

Your Primary Focus

Lead and Grow Landscape Architecture at OHM

- Promote landscape architecture within OHM by fostering collaboration and innovation.
- Develop and maintain client and industry relationships to grow the landscape architecture practice.
- Collaborate with local leadership to ensure project quality, staff development, and growth opportunities.
- Integrate landscape architecture with other OHM disciplines.
- Participate in professional activities to expand OHM's network and establish them as a leader in Michigan's landscape architecture market.

Preserve and Grow Client Relationships

- Builds and maintains strong client relationships by regularly communicating with various client levels.
- Secures repeat business through effective communication and by promoting OHM's complementary services.
- Explains technical aspects and solutions to clients and the public.
- Collaborates with project managers on client strategy, communication, contracts, and relationship development.
- Networks with professional groups to benefit clients and OHM.

Project Guidance and Quality Assurance

- Develop proposals, schedules, and budgets for landscape architecture projects of various sizes.
- Guide project direction, ensuring alignment with OHM's values.
- Ensure project quality through quality control measures.
- Collaborate with leaders, clients, and teams to deliver projects and solve problems.
- Monitor project finances, quality, and team workload.

Personnel Mentorship

- Collaborate with local leadership to manage, mentor, and guide team members to ensure professional development and advancement.
- Monitor studio development and identify opportunities for individual growth and technical leadership.
- Assist in tracking, establishing, and achieving budgeted staff utilization levels and discipline goals.

What You'll Need to Succeed

- Ability to function as a member of a team to support project and interpersonal goals and work collaboratively.
- Team-oriented mindset and strong listening and collaboration skills
- Professional licensure in landscape architecture
- Experience providing leadership in landscape architecture throughout the region, including participation in professional organizations, speaking and publication.
- Monitor the production of landscape architecture deliverables at all phases of design.
- Self-directed and able to prioritize, multi-task, and meet deadlines.
- Experience working within financial management software to monitor project performance metrics.
- Proficient in AutoCAD, Sketchup, Adobe Suite. Familiarity with Lumion a plus.

Come work for OHM Advisors, the community advancement firm.

With the singular mission of Advancing Communities, our diverse, 650+ member team works collaboratively across multiple service areas including architecture, engineering, planning, surveying, and construction engineering to create better places for people.

We are a team of experts with individual specialties working together, driven to make a difference through people-focused problem solving, design and ideas. In everything we do, we put people first. We create places for communities of people that help solve a problem and drive them forward—advancing the whole community today and well into the future.
