

# Placemaking Through **LANDSCAPE DESIGN**

July 15th - July 19th, 2024

**2022 Summer Camp**

Landscape design is all around us, whether you realize it or not.

Landscape Architects help design parks, campuses, plazas, and most of your favorite outdoor spaces.

Come join us and other Landscape Architects in this hands-on design studio!

You will have the opportunity to design your own unique teen space with guidance from design professionals. Additionally, you will be shown a variety of existing projects as we visit various sites within the Southfield City Centre, downtown Detroit, and surrounding areas. Participants will learn about landscape design with other students in working teams and will be able to leave with a unique experience and greater understanding of the built environment that surrounds us.

(Maximum of 20 students)

**2023 Summer Camp**

Day Camp Registration is \$100

Includes registration for all camp activities, materials, lunch, transportation, certificate of completion, and a custom T-shirt.

**REGISTRATION DEADLINE:  
JULY 1, 2024**
